

# Cheer Canada Coaching Certification

## What it is and how you can get a head start!

### WHAT IS COMING?

The Cheer Canada Coaching Certification Program will be a National coach education program delivered by the Provincial/Territorial Sport Organizations. This program will incorporate a combination of Cheer Canada sport-specific technical courses, NCCP theory courses, Safe Sport training, and an evaluation process. The courses will be phased in over the next few years starting with Cheer Fundamentals and Cheer Competition Introduction. Safe Sport training will be mandatory as of July 1, 2021.

### WHAT IS THE NCCP?

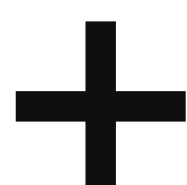

The National Coaching Certification Program (NCCP) has been identified as a world leader in coach education. Managed by the Coaching Association of Canada, in collaboration with National and Provincial/Territorial Sport Organizations, the NCCP provides standardized, inclusive, and safe sport education across 65 sports. Using current research and education best practices, it is comprehensive programming designed and delivered in partnership with the government of Canada.

### WHAT DOES THIS MEAN FOR CURRENT COACHES?

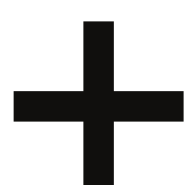

Cheer Canada recognizes the value of prior training and experience. A process for recognizing coaches' prior training and experience is being developed alongside the new coach education courses. Experienced coaches will not have to start their training all over again! We strongly recommend you build on your practical training with the theory found in the NCCP modules. Required NCCP courses taken for certification in another sport will transfer to your Cheer Certification. Safe Sport training is required for all coaches regardless of the current level of certification. Please confirm with your PTSO if your province offers a required Safe Sport equivalent.
